

ShowerChannel

Private Residence, Port Coogee, WA

Port Coogee is a vibrant coastal community boasting a world class marina on the shores of the Indian Ocean, just 5km south of the bustling cosmopolitan city of Fremantle. After a decade of extensive planning and development, the Port Coogee project was awarded the Best Master Planned Community at the 2013 Property Council of Australia National Innovation and Excellence Awards.

Project Design Brief

Designers of the prestigious residence wanted to adopt a simple one-way fall to the shower drain and incorporate large tiles throughout the wet areas. The bathrooms have different colour schemes, however designers wanted a continuity with the accessories and required a drainage and waste system that could be adapted in length to suit various sized wet areas.

ACO's Solution

- QuARTz by ACO ShowerChannel with the wave grate design

Benefits

- Electro-polished Grade 304 stainless steel channel and grate finish ensures a high quality finish
- Wave grates are available in 6 standard lengths to suit various sized wet areas
- Shallow V channel profile aids water flow to the outlet
