Seahaven Noosa Resort

The Seahaven Noosa Resort, with direct access to Noosa Main Beach, is filled with spectacular beachfront apartments overlooking Laguna Bay in Noosa Heads.

The resort had recently undergone a complete makeover where large and contrasting tiles were used in certain areas of the resort.

Bathrooms were also modernised and enveloped with a sleek tile pattern.

QuARTz By ACO bathroom linear drains and floor wastes with Linéaire grates were specified throughout, to complement, without disturbing the visual balance of the wet room's décor. Linéaire grates offer high water intake and are designed with slip resistant features.
